About Me

Driven and detail-oriented software engineer with a strong foundation in building modern, user-focused web applications. I thrive in fast-paced environments where clean code, thoughtful design, and reliable performance matter. With real-world experience crafting full-stack solutions using popular tools like React and Node.js, I bring both technical skill and a passion for continuous improvement. At 21 years old, I combine fresh perspective with proven capability, ready to contribute, grow, and make an immediate impact on any engineering team.

Languages

Macedonian (Native)
English (Fluent)

Education

Classical Guitar Studies
DMBUC - „IlijaNikolovski - Luj“ 09/2019 - 06/2023

Computer Science & Innovations
Brainster Next College 10/2023

Professional Experience

IT SUPPORT SPECIALIST & WEB DEVELOPER
articbreezesystems 06/2024 - 10/2024

Built and launched an e-commerce website for selling truck AC units in the U.S. market, including design, development, and integration of payment systems.

Gained hands-on experience in web development technologies and IT support, blending creativity with technical problem-solving.

PHP INTERN AT PABAU CLINIC SOFTWARE
Pabau 01/2025 - 03/2025

Engineered dynamic server-side applications by crafting optimized PHP code that automates workflows, enforces business logic, and boosts overall system performance.

Designed interactive front-end components with jQuery to enhance user engagement and improve functionality across diverse platforms.

FULL STACK INTERN AT VALTECH
Valtech 06/2025 - 09/2025

During my internship at Valtech, I worked as a full-stack developer and team lead on a 4-person team. We built ETW, an internal web app that automates document generation by transforming Excel data into Word templates.

developed the main conversion API, implemented backend validation and error handling, and built a custom React stepper component as the core user flow. Alongside coding, I contributed to peer reviews, documentation in Confluence, and agile ceremonies, gaining hands-on experience in collaborative, production-grade software delivery

Skills

- Problem Solving
- Willingness to Learn
- Creativity
- Team Collaboration
- Critical Thinking
- Growth Mindset
- Attention to Detail
- Communication Skills
- Time Management
- Adaptability
- HTML/CSS/Tailwind/Bootstrap
- JavaScript/TypeScript
- jQuery/React/Next.js
- Node/Express.js
- PHP/phpMyAdmin/Laravel
- Git/GitHub
- Python
- Linux/Ubuntu/Kali
- AWS
- MySQL/MongoDB
